Product highlights

High purity copper
This copper conductor provides high accuracy in signal transfer with minimal resistance.

Dense conductor
A more dense construction of copper facilitates better signal transfer.

Color coded cables
Tinned copper and bare copper conductors provide easy polarity identification.

Plug & Play
Plug & Play gives you the ability to install or add a new component and have it work without having to perform any complex installation procedure or technical analysis.

Flexible PVC Jacket
Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Lead-free construction
Lead-free construction of environmentally friendly materials.
